Welcome to MVA Oncology Network and our 4th meeting – a pitch evening with Alligator Bioscience!

Medicon Valley Alliance Oncology Network set up by prof. and entrepreneur Nils Brüner (University of Copenhagen) and prof. and entrepreneur Carl Borrebaeck, (Lund University) has now been up and running for one year.

To celebrate this first successful year, Medicon Valley Alliance, together with one of our members – Alligator Bioscience, are happy to invite you to the 4th MVA Oncology Network meeting, which will be a full-time pitch and networking evening:

Date: 20 November 2017

Time: 17:00 – 20:00

Host: Alligator Bioscience AB

Venue: Auditorium, Medicon Village, Lund

Cost: Free of charge for MVA members

[Sign up](#)

Interested in pitching? Sign up as soon as possible and we will send you some more information.

To get the chance to be one of the lucky ones presenting a pitch, you will need to send us a pitch title and short abstract in advance. All submitted abstracts will be handed out to all meeting attendees, to allow visibility to as many of the attendees as possible. If you have any questions, please don't hesitate to contact Senior Project Manager Helen Pettersson: [hp \[at\] mva.org](mailto:hp@mva.org).

We are also happy to announce that **our sponsor HØIBERG offers a free IP strategy meeting with full confidentiality to all groups/projects that will be selected for a pitch.**

The network

MVA Oncology Network is a professional and social network within oncology. The network focuses on best practice, experience and current challenges for public-private collaboration and the commercialization of oncology related R&D in the Medicon Valley region. The network consists of professors, PI and corporate level executives from the regional oncology eco-system. Membership is limited to Medicon Valley Alliance members

only, but non-member organizations and companies are welcome to attend one network event to evaluate if a membership of the network is relevant. If so, becoming a member of Medicon Valley Alliance will automatically able you to join the oncology network.
