

## The Network

Our ambition with the [MVA Microbiome Network](#) is to create opportunities for microbiome researchers from industry, academia, and health care to meet and collaborate.

Joining the network is free of charge but is limited to Medicin Valley Alliance members. However, non-member organizations are welcome to attend one network event to evaluate if joining the network is relevant. If so, becoming a member of Medicin Valley Alliance will automatically allow you to join the microbiome network.

## Program

**Moderator:** Sophie Labrosse, Medicin Valley Alliance

- 10:00-10:05 **Welcome by [Petter Hartman](#), CEO, [Medicin Valley Alliance](#)**
- 10:05-10:15 **Positioning Greater Copenhagen as a leading global centre for microbiome research**
