

LIFE SCIENCE MATCHMAKING DAY 2021

Aarhus University, the faculties of Natural Sciences, Technical Sciences and Health, invites you to:

Life Science Matchmaking Day 2021

Virtual event

Thursday, April 15 from 3 p.m. to 6 p.m.

Life Science Matchmaking Day is a unique opportunity for companies to establish collaborations with students within life science – ranging from collaborative projects or thesis to internships and student jobs.

Don't miss this opportunity

The entire day takes place as an open bazaar, and as company, you will have:

- a virtual meeting stall, where you can present your company and the projects or jobs that you want to recruit for.
- access to a dedicated project bank, where you can upload your projects/jobs as well as your company description. Participating students will be able to find your company and projects/job postings before, during and after the day.
- direct contact with talented life sciences students and a head start in recruiting the best.

All it takes

- A written short presentation for the project bank of your company and the project/job that you are recruiting for. You will have an online stall at your disposal for this.
- Participation in the event and an oral presentation for the interested students.
- A binding sign-up no later than **March 31st 2021**

For more practical information on Life Science Matchmaking Day 2021, visit the website [here](#) and see below.

We hope that you will participate and contribute to the strengthening of collaboration within Life Sciences.

Best regards,

Lise Wogensen Bach

Vice-dean for Education

Faculty of HEALTH
