

Call for Nominations NOVO NORDISK PRIZE 2022

Nomination closes on 1 June 2021

The 2022 Novo Nordisk Prize will recognize an active scientist for her/his excellent research, inspirational leadership and mentoring, leading to a major discovery or breakthrough in biomedical science. The prize is intended to award and further support biomedical research in Europe.

The Prize is of DKK 5 million (appr. EUR 672,000) and consists of a DKK 4,5 million (appr. EUR 605,000) research grant and a personal award of DKK 0,5 million (appr. EUR 67,000). The Foundation will grant an additional DKK 0,5 million for hosting an international symposium within the awardee's field(s) of research.

The Prize Committee will select awardees based on their scientific achievements and impact on the scientific community.

The Novo Nordisk Prize Awardee will be announced in Spring 2022.

ELIGIBILITY - Nominees:

- must demonstrate scientific excellence that has led to a major discovery or breakthrough in understanding of human health and disease, prevention, diagnosis and/or treatment of the disease.
- must have a current position and an active research program at a public, non-profit research institution or in a company based in a European country.
- must serve as inspirational leaders and role models for young scientists.
- may have any nationalities.

Please be aware that:

- Self-nominations are not accepted.
- The nominator cannot be a family member of the nominee.
- The prize may not be awarded to members of the Board of the Novo Nordisk Foundation or members of committees or to members of boards, directors or employees of the Novo Group.
- The nomination and review processes are confidential.
- **Nominations must be submitted electronically at:**
