

Health Innovation and Research opportunities for Denmark with Israeli HMO - Leumit Health Services

Leumit Health Services, a digital pioneer health fund from Israel, invites start-ups and innovation centers from Denmark to a Webinar in which we will introduce Leumit's innovation activity and possibilities for collaboration.

Thursday
November 11th
2021
13:30-14:30 CET

About Leumit

Leumit is one of four national health funds in Israel, providing medical coverage to 730,000 customers all around Israel. Over the past 20 years Leumit has averaged more than 7.7 million electronically documented medical visits annually. Leumit employs more than 2,000 physicians and 3,000 medical & administrative staff members across 330 clinics and 140 pharmacies nationwide.

Collaborations

Leumit is interested in cooperation with start-ups, pharmaceutical companies, researchers and others, regarding pilots and beta sites, clinical trials, clinical data, and clinical consultations.

In this webinar, you will learn more about Leumit's part in the Israeli health system, the digital innovation, clinical data infrastructure, and the Research Institute activities. We will discuss the collaborations Leumit has with start-ups and how they may fit your start-up.

At the end of the Webinar we will "speed date" with up to 10 companies in a breakout room. If you wish to meet us, please state so in the registration form. We will inform the selected companies in advance.
