

Danish Biotech Salary Survey meeting

Biotech is a knowledge-driven industry. High competition for key talent leads to a highly charged salary market. Ensuring the right balance between salary costs and the ability to attract and retain key talent is crucial to company performance. For this you need data.

To DANSK BIOTEK it makes good sense to help facilitate access to such information; hence, the invitation from Nordic Reward Partners was accepted to ensure that the Danish Biotech Salary Survey can become a reality.

**The upcoming Danish Biotech Salary Survey will give you
unique insights in Biotech specific jobs.**

Danish Biotech Salary Survey in short:

- A Salary Survey specifically designed for the Danish Biotech industry
- Detailed salary data on jobs that are specific for Biotech
- Detailed data on salary components and salary development in the industry
- Information on incentive plans used, both short and long term if applicable
- Information on policies such as pension and company car
- Salary data on geography and company size

Members of DANSK BIOTEK participate in the survey at a special reduced member rate.

If you want to learn more about the survey, you are welcome to **join one of our two introduction meetings: Monday November 8th from 10:00-11:00, or Friday November 12th 13:00-14:00.** Here you will also be able to influence the content of jobs surveyed.

A separate Teams invite will be sent shortly. Should you have any questions at this stage, please reach out to Managing Partner at Nordic Reward Partners, Jon Sannes: jon@nordicrewardpartners.com or by phone 23 99 96 25

Nordic Reward Partners is the largest producer of industry specific salary surveys in Scandinavia, producing among others The Lif Salary Survey for the Danish pharmaceutical industry.
