

# DANSK BIOTEK

## **Biotek Salon #22**

January 26, 2022, from 15:00-17:30

COBIS, M10, Ole Maaløes Vej 3, 2200 Copenhagen N

### **Is your company the next espionage target?**

DANSK BIOTEK & the Danish Security and Intelligence Service (PET) invite you to a briefing to raise awareness of the current threat landscape.

Technology and research organizations are attractive targets for espionage and problematic knowledge transfer. PET will share insights on where the threat is coming from, who are potential targets, and which methods are used.

During the session, you will also receive security advice on how you can proactively work to reduce the risk of losing your company's most critical knowledge, such as technology development and research, crucial to the future of your business.

Focus is on the human factor and behaviour, and PET will provide concrete advice on what you can do in your everyday life to counter espionage and problematic knowledge transfer.

#### **Agenda:**

- 14:30 Registration and networking
- 15:00 Welcome by DANSK BIOTEK
- 15.05 Introduction by Emilie and Therese, PET
  - Where does the threat come from?
  - Who are vulnerable targets?
  - What methods are used to access critical knowledge?
  - Which security measures can be implemented – i.e., when travelling and welcoming external visitors?
- 16:35 Real life experience and prevention by Mick Fossdahl, Senior Manager Consulting, Security & Technology, PWC
- 17:00 Questions and discussions
- 17:15 Networking, snacks, and refreshments

Pre-reads: "[Er jeres virksomhed det næste mål for spionage?](#)" by Head of the Counter Intelligence Department, Anders Henriksen.

To accommodate covid-19 restrictions, max. 50 people will be allowed at the event on a first come first served basis. Furthermore, face masks and sanitizer will be available to everybody.

**Register [here](#)**

The event is free of charge for members; however, non-members will be charged a fee of 500 DKK
