

Aarhus University, the faculties of Natural Sciences, Technical Sciences and Health, invites you to:

## Life Science Matchmaking Day 2022

May 5 - from 3pm to 6 pm  
Stakladen, Frederik Nielsens Vej 2, 8000 Aarhus C

Life Science Matchmaking Day is an annual matchmaking event. The event is a unique opportunity for companies to establish collaboration with students within all fields of life sciences. It is *the* annual event for life science companies who are interested in establishing collaboration with students from Aarhus University.

### As a company, you get:

- A stand at the venue for Life Science Matchmaking Day and a virtual company profile that will make you visible for the relevant students. Only companies participating in Life Science Matchmaking Day are featured.
- Access to a project bank where you can present the projects or jobs you are recruiting for. The participating students can find you and your project before, during and after the event.
- Direct contact with talented life science students and a head start in the hunt for the best.

The entire day takes place as an open bazaar. It will feature students and PhDs from all faculties

We hope that you are interested in participating

Best regards,

Vice-dean for Education at Natural Sciences - Kristine Kilså  
Vice-dean for Education at Technical Sciences - Finn Borchsenius  
Vice-dean for Education at Health - Lise Wogensen Bach
