

DANEMO Fellowships for Collaborative Work

Available to researchers and students at Danish research institutions for
exploring opportunities for collaborations with EMBL

**Focusing on research within the framework of the new
EMBL Programme “Molecules to Ecosystems”**

Support available for:

Visiting EMBL laboratories, core facilities and user services
for specific experiments or techniques

Hosting network meetings for research groups and
networks at Danish research institutions

Apply for up to 20.000 DKK. Applications are received continually.
